Micro Labs Limited, a leading Indian multinational, is committed to advancing healthcare through innovation in pharmaceutical formulation, manufacturing, and global distribution. Established in 1973 and headquartered in **Bangalore, India**. Micro Labs has grown into a global force, with a footprint spanning all **7 continents**.

Our **state-of-the-art manufacturing facilities** in India meet the highest international standards and are accredited by globally recognized regulatory bodies such as the **USFDA** and **UKMHRA**.

Micro Labs offers a robust portfolio across critical therapeutic areas, including **Cardiology, Diabetology, Gastroenterology, and General Health**. In **East Africa**, we are a trusted partner, particularly in the **Cardiology, Diabetology, and Gastroenterology segments**, where we continue to expand our impact.

Guided by our core belief that “**Knowledge is Power**,” we are proud to drive scientific excellence through our flagship programs: **Afrinova, Afriptide, and Afrigastro**. These initiatives are designed to empower healthcare professionals with evidence-based knowledge and real-world clinical insights.

This year too the event is a step forward in that mission – **bridging scientific evidence with everyday clinical practice**, and empowering practitioners to deliver better outcomes through informed decisions. Together we transform evidence into experiences.

Airport Drop.*

Afriporide

MALAYSIA 2025

The word "Afriporide" is written in a large, stylized font. The letter "A" is white with a black outline. The letters "frip" are black, and "oride" is black. A small red pipette tip is positioned above the letter "i". To the left of the text is a stylized map of Africa, outlined with a colorful, multi-colored border.
